

# Ordering the phases

1. The following is a set of photographs of the Moon. Unfortunately, they are in the wrong order. Can you put them back in the right order?

2. Each of these views of the moon is known as a "Phase of the Moon". They all have names. Attach each name to the right picture.

full moon

new moon

first quarter

waxing gibbous

last quarter

waning gibbous

waning crescent

waxing crescent
